

**Catholic Women's League**  
**Manitoba Provincial Council**  
**Education & Health Oral Report, June 2021**  
**Report provided by Janet Brunger**

Although we don't currently have an Education & Health Chairperson on Manitoba Provincial Council, there has still been activity in that Standing Committee.

Topics of relevance have been discussed at all levels of the League, and our members have acted upon the recommendations.

Faith Anderson, Education & Health Chairperson on National Council has produced several timely and informative communiques, which have been fanned out from Provincial to Diocesan and on to Parish Councils.

Our members continue to be active in our National Theme, *Care for our Common Home*, in their efforts to reduce their carbon footprint and reduce the amount of waste in our landfills. They are continuing to collect plastic bags, textiles are being repurposed wherever possible, and many of our members are donating to and purchasing needed items from second-hand and thrift stores instead of retail.

Thank you to all of our members for their dedication and efforts!

Janet Brunger
