

Catholic Women's League
Manitoba Provincial Council
Education & Health Oral Report, June 2022
Report provided by Janet Brunger

Your report can be found in our Annual Report Book.

Although we don't currently have an Education & Health Chairperson on Manitoba Provincial Council, there has still been activity in that Standing Committee.

Topics of relevance have been discussed at all levels of the League, and it is gratifying to see how our members have acted upon the recommendations.

Margaret Schwab, Education & Health Chairperson on National Council has produced several timely and informative communiques, which have been duly fanned out from Provincial to Diocesan and on to Parish Councils.

Our members continue to be mindful of our ecological footprint, and with that in mind, work to reduce waste, if there is an option to recycle. Health related matters have also resonated, and education of our members on these topics are shared.

Thank you to all of our members for their dedication and efforts!

This concludes my report.

Janet Brunger
